2025 SUMMIT ADRENALINE WITH EDGE PACKAGE

// FEATURE HIGHLIGHTS

1 Rotax 850 E-TEC® Turbo R engine (165 in. only)

The most powerful factory-built 2-stroke turbocharged engine in snowmobiling. Its instant response cranks out a full 180 hp up to 8,000 feet of elevation. Sophisticated design keeps weight down and integrates flawlessly with the REV Gen5 chassis for maximum agility. Factory installation ensures peace of mind and incredible reliability.

2 Ultra-Light Deep Snow Seat with integrated belt holder

The Ultra-Light Deep Snow Seat offers a small shape for easy movement with a CVT belt storage area underneath. The seamless cover and redesigned base provide better protection from water intrusion with less stitching and a new front clip area that better seals out moisture.

3 Soft glovebox extension

The Soft Glove Box adds some easily accessible storage. The semi-rigid construction is durable and water-resistant while adding 30% more capacity, including a separate inner cell phone compartment. The bright yellow interior makes it easier to spot items and offers more protection to the things inside. Works with USB and 12-volt power outlets and the low windshield (not included).

SUMMIT ADRENALINE WITH EDGE PACKAGE
165 850 E-TEC TURBO R SHOWN

4 Adjustable brake lever and flexible handguards

The brake lever is a toolless adjustable design so riders can find their preferred position for their own riding style (20 mm of range).

The flexible handguards deliver better protection and great style for all windy riding days.

5 11 L fuel caddy

This 11-liter (3 US gallon) capacity fuel caddy installs quickly, easily and securely with the LinQ system. Has a no-spill spout for easy use.

6 Exclusive Carbon Black special edition

The exclusive Carbon Black color means serious business. Deep and refined black with a one-of-kind richness.
