MXZ X-RS: NEW FRONT END

DISCOVER THE ACCESSORIES  
AND APPAREL COLLECTION

A different breed. That's how we'd describe our sleds. And the people who ride them.  
Where you see a landscape, we see an escape.  
You like the silence of winter? We prefer the sound of it.  
To us, what comes after the storm is definitely not the calm.  
You can call us intense. For having multiple weather apps on our phone.  
Or nerds for knowing the difference between Liquid Titanium and Monument Grey.  
Actually, call us whatever you want. We won't hear it over the sound of our Rotax engine.

# SKI-DOO 2025

# WHAT'S NEW

Ultimate Precision.  
Unbreakable  
Confidence.

Turbocharge Your  
Adventures.

## MXZ

New RAS RX Front  
Suspension + Pilot RX Skis

The new RAS RX front suspension and Pilot RX Skis give the most aggressive riders an unmatched advantage over any trail. Fresh front end delivers superior cornering stability and even more big-bump capacity. New ski design offers improved steering precision.

## BACKCOUNTRY X-RS

Extreme Crossover with a Twist

The premier crossover sled gets a massive performance boost with the Rotax 850 E-TEC Turbo R engine with water injection system. A full 180-hp to power, plus newly available RAS-RX front suspension and Pilot RX ski to meet the specific demands of the aggressive adventurer.

For the Climb.

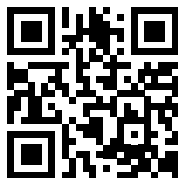

Think of the  
possibilities.

## SUMMIT

Make the Mountains Your Playground

New KYB Pro 36 EA-3 front shocks on the Summit X with Expert Package allow riders to dial in their preferred ride from 3 instantly adjustable settings. The X package keeps its status as the lightest Ski-Doo deep-snow sled.

## FREERIDE

Now, think again!

The 2025 Ski-Doo Freeride defies every ounce of normalcy. Each aspect is designed for those who demand a bigger challenge in every ride. With a Freeride, every squeeze of the throttle leaves the limits further behind.

# NEW APPAREL & ACCESSORIES

## CONNECTIVITY EMBEDDED MAPS

Get lost in the moment, not the woods. Feel right at home in the middle of nowhere. The Ski-Doo 10,25-inch touchscreen display now includes built-in GPS capability, so you can ride free knowing you'll always find your way – even without connecting your phone. Track your ride progress and leave a breadcrumb trail to guide you and your crew back to camp.

## VIBE COMMUNICATION SYSTEM UNIVERSAL COMM SYSTEM

Crystal Clear Communication for All  
Compatible with all BRP helmets, the Vibe Universal Comm System provides unparalleled connectivity and exceptional ease of use. One click quickly connects the comm system to your phone, sled and other riders. Features Mesh 2.0 technology for open or group mesh capability. Premium sound with Harmon/Kardon audio, dual antenna reception and Bluetooth 5.1 connectivity. Rated for up to 5 hours of use at -18c with 1.2-km range.

## FEEL THE FLOW OXYGEN FLOW HELMET

New features for more comfort and versatility  
The Oxygen helmet sets the bar helmets in every measurable standard. Thanks to advanced features and an updated venting system, riders get another 10 degrees C of interior temperature control in the new Oxygen Flow Helmet.

## LINQ 1+1 REMOVABLE RACK EXTRA SEATING OR LINQ STORAGE

Swap seats and accessories instantly  
Add instant versatility to your Ski-Doo sled. LinQ 1+1 Removable Rack allows instant addition of a LinQ passenger seat and doubles as an extra LinQ accessory attachment point when riding solo.

## STACKABLE LINQ DECK DOUBLE YOUR STORAGE

Double Your Storage  
Two stories of cargo capacity  
The new Stackable LinQ deck doubles up the adventure by adding twice as many LinQ accessory connection points allowing you pack more into every winter experience.

## LED SIGNAL LIGHTS

Add extra safety on trails: signal to other drivers about the sleds behind you or potential danger spots with distinctive colored lights. Available for windscreen or handguards.

# RIDE FREE. LIVE LARGE.

The ultimate mountain experience is a Ski-Doo handlebar away. For extreme performance in the steep and deep, our deep snow models are the only option.

## FREERIDE

Claim all extreme deep snow maneuvers as your own on the most powerful two-stroke turbo ever. With 180 horsepower all the way up to 8,000 feet, the Freeride leaves all competitors behind. This sled is stable and predictable at high speeds across all snow conditions, including bigger bumps. Welcome to the new standard.

## SUMMIT

For the ultimate precise and predictable deep-snow sled with features sharpened for most technical terrains, choose the Summit X with Expert Package.

Effortless throughout the day, the Summit X is the lightest, most agile and nimble of its family with an unmatched degree of playfulness.

## E-TEC® SHOT™ STARTER

Say goodbye to pull-starts on our deep snow sleds — at no significant extra weight! From now on, pull-start your snowmobile when you start riding, then use the SHOT starter push-button the rest of the day. The initial engine start charges a lightweight ultracapacitor, which will turn the magneto into a starter motor on SHOT starts. By turning the crankshaft, the Rotax E-TEC® does the rest: it injects the fuel and fires up the ignition. With just 2 lb (0.9 kg) extra, this Ski-Doo marvel is still 20 lb (9 kg) lighter than the typical electric start.

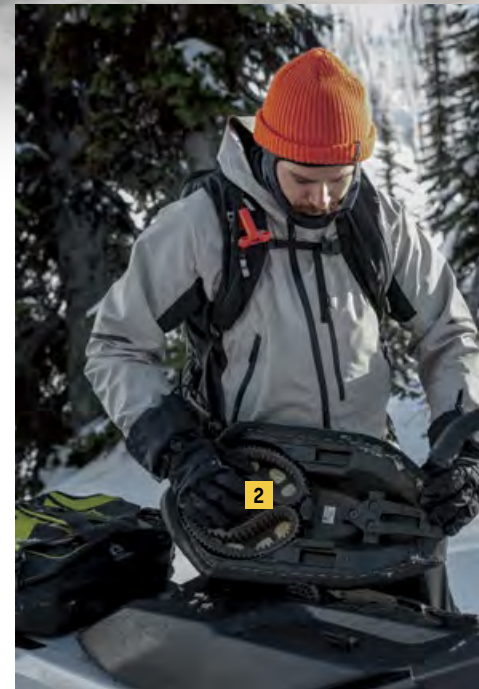

# ACCESSORIES

Never waste an inch of snow this winter and equip your sled with accessories designed to help you find your personal powder paradise. Customize your deep snow snowmobile for the ultimate mountain experience.

- 1 NEW** Soft Glove Box Extension  
860202857
- 2 NEW** Deep Snow Ultra-Light Seat

- 7** Deep Snow Soft Knee Pads  
860202702

## DID YOU KNOW?

**NEW** Ultra-Light Deep Snow Seat offers a small shape for easy movement with a CVT belt storage area underneath. The seamless cover and redesigned base better protect from water intrusion with less stitching and a new front clip area that better seals moisture out.

Carry more of the downhill gear you need with the LinQ snowboard and ski rack. Add or remove one alongside the tunnel of your sled in seconds to fit whatever plan you have for the day. Whether you want to pack skis, boards or more equipment, this extra makes it extra easy.

# ROLLING IN THE DEEP

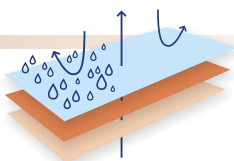

Built by the pros and for the pros, the BC Aspect Collection keeps riders like you dry everywhere you go. The fit of each item has been given the stamp of approval of our 3D garment engineers for maximum comfort and mobility. Add it all up and you get riding apparel so comfortable you'll forget you're wearing it!

## 3-layer shells for deep snow fun

sympatex®

### 3 LAYERS

Full mobility and freedom of movement are a given with our Sympatex shell. With a 3D fit optimized and coupled with our 3-layer lightweight stretch, it delivers comfort at every turn.

## BC ASPECT ONE-PIECE SUIT

# TRAIL NO ONE

## MXZ X-RS WITH COMPETITION PACKAGE

### A WINNING TRACK RECORD

Meet the lightweight sled with heavyweight results. Behind endless power, high-capacity race-proven features and easy agility, the Ski-Doo MXZ sleds give riders like you an edge: they've got motocross-like handling and agility, plus a Rotax engine to power you to victory.

# CAN'T & WON'T STOP

# RENEGADE X-RS

## AWAKEN YOUR INNER RENEGADE

The Renegade is bound to please all thrill-seekers.

Let your mind wander on long, comfortable rides with a snowmobile built for premium performance.

Whether you want to rack up miles on long adventures or crush the throttle and see what's lurking after every aggressive turn, the Renegade is up for it... even on the same day!

## INNOVATION

### RAS RX FRONT SUSPENSION

Equipped on all MXZ models, except MXZ Sport

Suspend your disbelief! With a race-inspired RAS RX Front Suspension, the most advanced sled on snow just gets better. Conquer every inch of any trail any time you ride with a snowmobile that flattens every corner: designed for rough trail conditions, the new front suspension keeps raising the bar.

### PILOT RX SKIS

Equipped on the MXZ X-RS with Competition Package and the MXZ X-RS

The all-new Pilot RX skis offer unrivaled control in all snow conditions. Built with an aggressive design, the skis deliver better grip and enhanced cornering for bold riders who love nothing more than whooshing through trails and telling others about it.

# TRAIL ACCESSORIES

Make every mile count. Whether you need more convenience or functions, or just want to turn heads when you ride by, Ski-Doo trail accessories will meet your needs.

# SHOW WINTER WHO'S BOSS

A photograph of two people wearing helmets and winter gear riding a dark-colored Ski-Doo Expedition SE snowmobile. They are positioned in front of a wooden cabin with a snow-covered roof. The snowmobile's headlights are on, and the scene is set in a snowy, winter environment.

## EXPEDITION SE

Explore parts unknown and expand your horizons on the Ski-Doo Expedition. On- or off-trail, this multi-tasker delivers ultimate ability whether you're working at the cottage or chasing a high on a new snow adventure.

## EXPEDITION SE

### WHEN LUXURY MEETS CAPABILITY

Meet the sled that puts any winter task or adventure within reach. Behind incredible versatility, the Expedition SE keeps things rolling in all snow conditions. Built with the REV Gen4 platform and plenty of work-ready features, this model answers the call both on- and off-trail. Carry everything you need, whether it's the tools to take on your to-do list or the gear to chase That Ski-Doo Feeling, and just have fun!

# ACCESSORIES

For the riders who love it all, we've got accessories to do it all. To hunt, work or fish, Ski-Doo accessories can suit any of those needs.
